GÜMÜŞTEKİN MAH. ADSIZ ŞEHİTLER CAD. , Gaziantep, Gaziantep, 27200, Türkiye

Computer Engineer and Full Stack Developer with hands-on experience building scalable, production-ready web applications. Experienced in designing RESTful APIs, implementing secure authentication systems, and deploying full-stack applications. Passionate about clean architecture, performance optimization, and AI integration.

Work Experience

internship

Jul 2025 - Aug 2025

[CODE EXPERT](#) | Gaziantep

- Built a full-stack medical appointment system with user, doctor, and admin roles. Developed React/Vite frontends and a secure Node.js/Express/MongoDB backend with JWT and Cloudinary. Deployed on Render and Vercel with integrated booking and management features.

internship

Jul 2025 - Aug 2025

[Sia Teknoloji](#) | Elazığ

- Built a full-stack MERN e-commerce platform with TypeScript, secure authentication, protected routes, cart functionality, and order management. Implemented React Context for auth/cart state and a Node.js/Express backend with MongoDB, ensuring scalable architecture, clean structure, and a smooth user experience.
